

# In-Tank High Pressure Pump 265 (11837, 11838)

Compact In-Tank Application Specific Pump Upgrade.

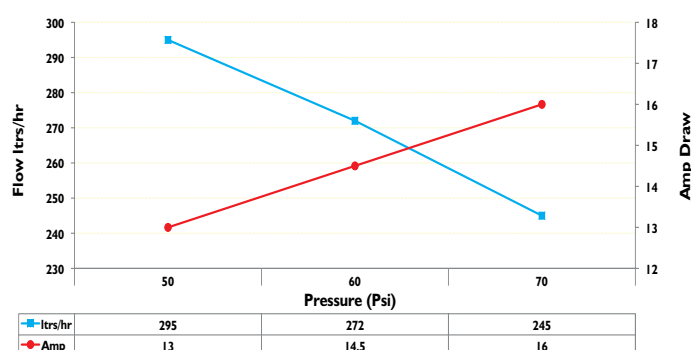

- Compact 65mm body for OE fitment
- Flows 375 litres per hour open flow
- Internal Check Valve
- Ethanol compatibility\*
- 1 Year warranty
- Upgrade for many popular OE applications (See App. List)
- Designed for in-tank use only
- Can be used in Carbureted or EFI applications
- Turbine pump mechanism increases durability and can be used in pulse modulated applications.

\* Reduced Run-Time (11837)

## Specifications

<b>Weight</b>	285 grams
<b>External Materials</b>	Black Steel Body
<b>Inlet Fitting</b>	11mm OD
<b>Outlet Fitting</b>	9mm OD
<b>Impeller Design</b>	Regenerative Turbine
<b>Terminal Post</b>	Spade Terminal OE Fitment
<b>Min Voltage Input</b>	6 vdc
<b>Max Voltage Input</b>	18 vdc
<b>Current Draw at 3bar (43 psi)</b>	12 amps (13.8vdc)

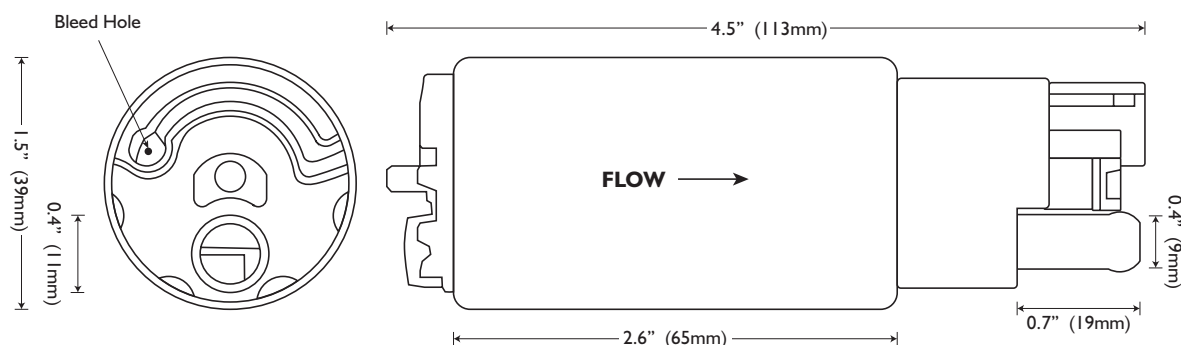

## Delivery Characteristics

## Application Hint

Ensure fuel is always clean and filtered.  
Check filter replace as required.  
Compatible with all regular fuels.  
11838 Ethanol Series.
